

Idaho Consortium for EMS Education:

A body of professional EMS educational institutions, acting as a consortium, is critical to the continued success of the Idaho EMS education system. Considering the relative complexity of current professional and technical training programs, it is unreasonable for the EMS Bureau and state EMS advisory committee to serve as the sole decision maker for EMS education issues without a mechanism for input from the community of professional EMS educators in Idaho.

MISSION STATEMENT:

The Idaho Consortium for EMS Education (ICEE) provides a forum where EMS educational institutions serving Idaho can participate in collaborative advancement of the EMS education system within the state of Idaho.

VISION STATEMENT:

The achievement of an exemplary and innovative educational environment that leads and maintains clinically competent and professional EMS providers in Idaho.
